

CURA

SOFTWARE SOLUTIONS

SMART, SIMPLE GRC SOLUTIONS

Smart Governance for a Changing World

The CURA platform is designed to enable businesses around the world to achieve the bottom line benefits of Governance, Risk and Compliance (GRC).

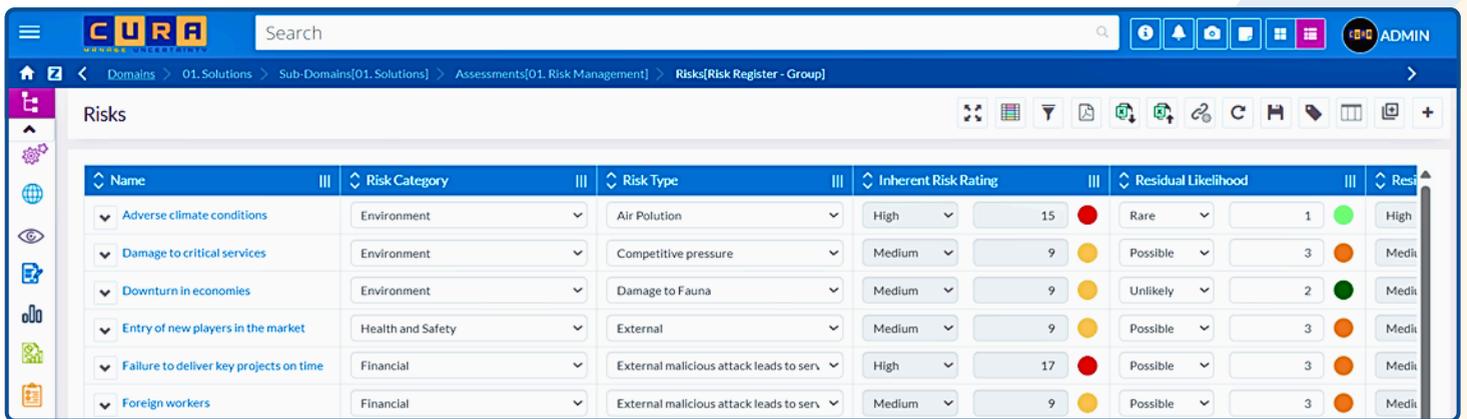

- Over 350 successful implementations
- Cloud or On-Premise Hosting
- Solutions built to integrate GRC processes
- Tailored to meet your business needs

ENTERPRISE RISK MANAGEMENT

Navigating complex risk environments, regulatory pressures, and operational uncertainties requires an enterprise management solution designed to enable businesses to identify, assess, mitigate, and monitor risks in real-time. The Cura risk management solution unifies GRC processes through integrated workflows, real-time analytics, and configurable dashboards for smarter and faster decision-making.

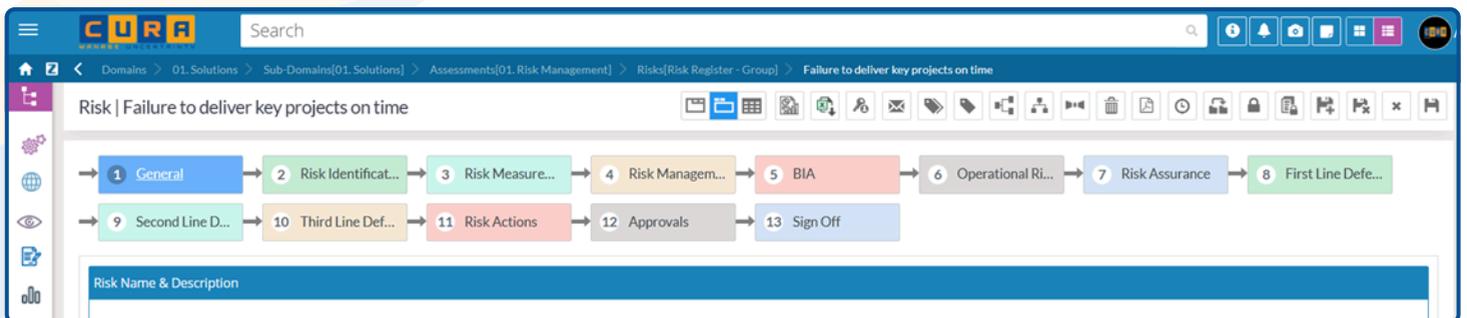

Turn risks into results, integrating risk into strategy, streamlining compliance, and delivering real-time insights that protect your brand and drive performance.

Name	Risk Category	Risk Type	Inherent Risk Rating	Residual Likelihood	Residual Risk Rating
Adverse climate conditions	Environment	Air Pollution	High (15)	Rare (1)	High
Damage to critical services	Environment	Competitive pressure	Medium (9)	Possible (3)	Medium
Downturn in economies	Environment	Damage to Fauna	Medium (9)	Unlikely (2)	Medium
Entry of new players in the market	Health and Safety	External	Medium (9)	Possible (3)	Medium
Failure to deliver key projects on time	Financial	External malicious attack leads to serv	High (17)	Possible (3)	Medium
Foreign workers	Financial	External malicious attack leads to serv	Medium (9)	Possible (3)	Medium

Use Cases & Applications

- Improvement in risk response time through automated workflows and real-time insights.
- Reduction in compliance-related incidents due to proactive monitoring and automated alerts.
- Enhanced business resilience by integrating risk intelligence into strategic decision-making.

Key Features:

- Risk identification and assessment.
- Automated workflow and task management.
- Data analytics and reporting.
- Compliance and regulatory alignment.
- Integrated risk library.
- Role-based security and audit trails.

Our innovative technologies put the power of configuration in the hands of our customers, which is why our solutions are used by global and mid-sized enterprises around the world.
